Be assertive. Be proactive. Be honest. Make responsible choices. Plan for changes. Be flexible. Take control of your life. All of these are statements I make, all of them I truly believe in.

After 32 years of practicing Psychology, I have decided to retire as of October 14, 2022. Until then we will continue to provide scheduled appointments. If you currently have appointments there will be no change in my availability. If you have not scheduled recently but would like additional sessions for closure please call the office to schedule.

Please know this is not a decision I have made lightly. I have truly loved my work and am choosing retirement as an opportunity to take on new adventures. I value my relationships and interactions with every patient in this office. I plan to provide for the transition of your psychological care in a respectful professional manner.

Psychological care is a very personal endeavor and I want to facilitate a smooth transition for each of you. Consequently, I have coordinated with local therapists who can provide continued services. Treatment summaries will be made available to you or any therapist you choose as requested. If you desire a records transfer at a later time, please use the contact information provided on the website: [susancreederphd.com](http://susancreederphd.com). You will need to complete a Release of Information form which can then be emailed ([sreederphd@embarqmail.com](mailto:sreederphd@embarqmail.com)) or mailed to the PO Box.

It has been an honor to be of service to you. You have my warmest wishes for the future. As always, if you have any questions please call the office so that Debbie or I can address your specific concerns.

Sincerely,
